

Dear IAAS friends and members,

First, we would like to convey our support and appreciation to our friends who are in the reserve service, looking forward to your safe return!

Parallel with the opening of the academic year, we have set an alternative date for the association's annual conference on **02/11/24.**

The conference will be held under the instructions of the Home Front Command depending on the security situation, and we hope that will encourage scientific activity under a routine of war and connect and strengthen our community.

Registration for the conference and submission of abstracts has reopened! At the following link: <https://www.israelaquatic.sites.tau.ac.il/2024meeting>

Anyone who planned to submit an abstract and did not make it - you can submit abstracts until 06/01/24

Early registration rates will be valid until the 15 /01/24

Additional news

* Looking for a research opportunity in the North Pole? The Atmosphere and Sea research group from the Weizmann Institute is looking for people to join - see attached file

* Master's degree student needed for research on jellyfish - see attached file
